

1) Determinando o componente Fx:

(co)
$$\mp = 1000 \text{ N (H)}$$
 For relations trigonométricas: $005x = CA$
 $\mp V$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $\mp V$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $\mp V$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $00545 = 7 = 1000 \text{ N (H)}$ For relations trigonométricas: $005x = CA$
 $00545 = 7 = 1000 \text{ N (H)}$ For relations trigonometrical stripers trigonometric

2) Déterminande à componente Fy:

(CO) (H)	Por relacões trigonométricas:	Vinx = Co
Fy = 10000 W	U	++
950	84145°= Fy => Fy= 1000. 841/5°=>	FU = 707,100
Fx (CA)	Ŧ O	

3) Seterminando o componente Fz:

tilibra
